

BLACK BOTTLE **RIOT**

Biography

Just like the name suggests, Black Bottle Riot hits you right in the face. This Rock 'N' Roll fourpiece from Nijmegen, The Netherlands, has been described as a solid blend of Lynyrd Skynyrd and The Ramones. This implicates some good stuff: a pack of damn fine songs, an earthy attitude and - yes, they bring it back - loud guitars. The boys are working on their first EP "Stay Hungry" at this very moment. Insiders know that it's bound to blow the curls out of your mullet. You know you've been waiting for this!
